

**Cannulas & Trocars**

# Cannulas

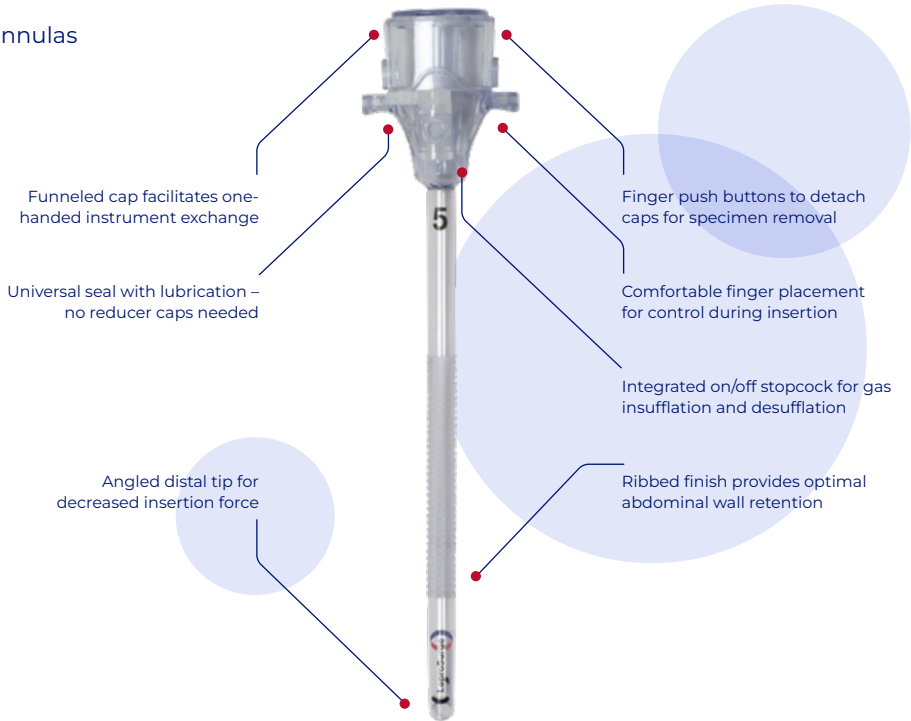

Cannulas available in a variety of options to suit different clinical needs and user preferences.

## Features and benefits

- Universal seal with lubrication – no reducer cap needed
- Funnelled cap facilitates one-handed instrument exchange
- Finger push buttons detach caps for specimen removal
- Comfortable finger placement for control during insertion
- Integrated on/off stopcock for gas insufflation and desufflation
- Angled distal tip for decreased insertion force
- Radiopaque markings ensure the distal tip shows up during X-ray
- Available in 3mm, 5mm, 10mm, and 12mm diameters and with a balloon
- Tyvek packaging reduces space and waste per procedure

Cannulas
