

Laparoscopic Instruments

# Monopolar Graspers & Dissectors

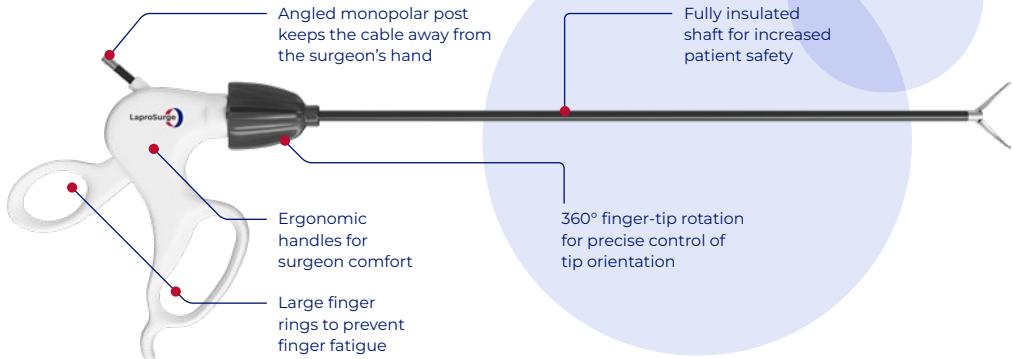

An extensive collection of high-quality monopolar graspers and dissectors in a range of single and double action jaws. Lightweight and well balanced for long procedures, all instruments provide a high level of tactile feedback for increased control and have a standard monopolar connection. Available in 3mm and 5mm, these are sterile and single-use instruments.

## Features and benefits

- Ergonomic handle for surgeon comfort
- Large finger rings to prevent finger fatigue
- 360° finger-tip rotation for precise control of tip orientation
- Intuitive trigger ratchet
- Fully insulated shaft for increased safety
- Angled monopolar post keeps the cable away from the surgeon's hand

## Monopolar Graspers & Dissectors

Product	Code	Action Type	Diameter	Jaw Length	Working Length	Quantity
Atraumatic Grasper	LG001-T	Double	5mm	19mm	330mm	12
