Monopolar Scissors

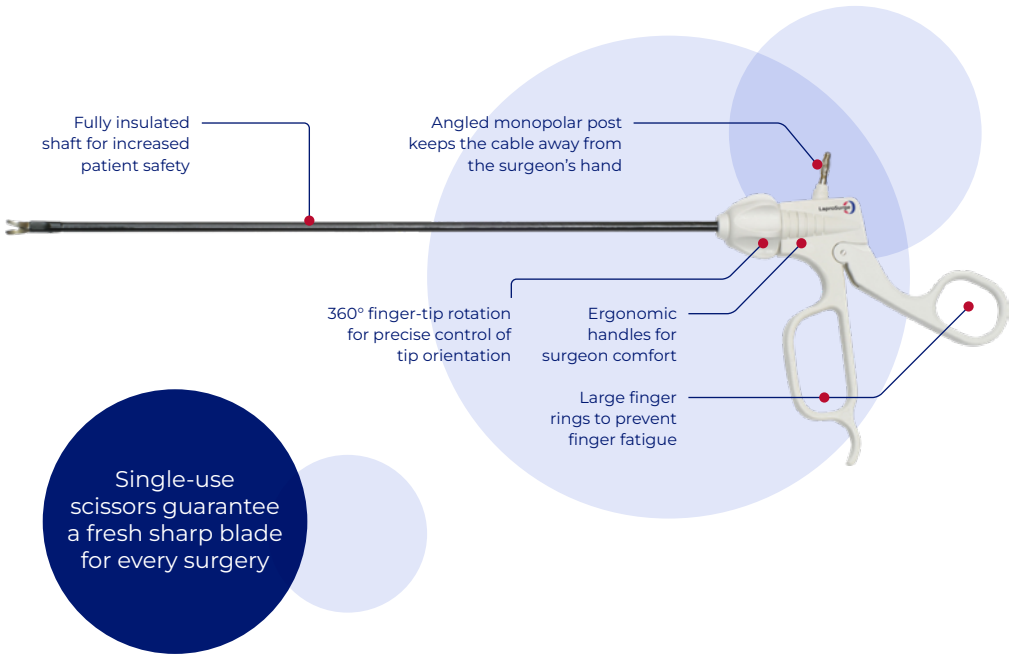

We manufacture great value double action monopolar scissors. Their curved blades increase visualisation of the blade tip during cutting. These are sterile and single use which guarantees a sharp blade every time, without the additional costs of sharpening and reprocessing. Available in 3mm and 5mm and includes a monopolar connection.

Features and benefits

- Different options of blade lengths
- Ergonomic handle for surgeon comfort and control
- 360° finger-tip rotation for precise control of tip orientation
- Large finger rings prevent finger fatigue
- Precision manufactured blades for accurate cutting at the tip
- Wide opening angle for improved tissue dissection
- Fully insulated shaft up to the scissor blades for increased safety
