

Cannulas & Trocars

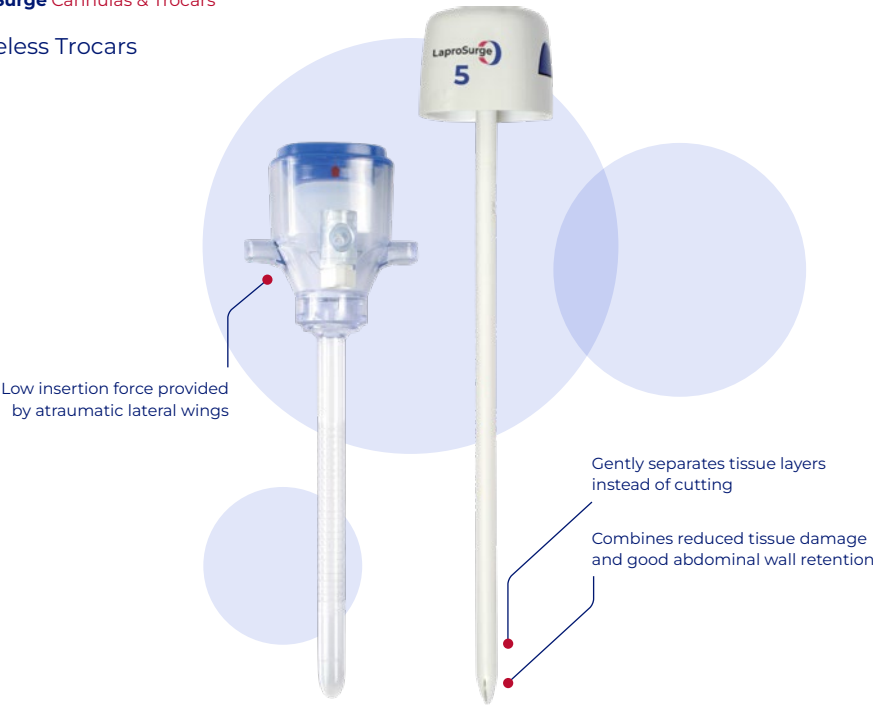

# Bladeless Trocars

The bladeless trocar gently separates tissue layers instead of cutting, combining reduced tissue damage with good abdominal wall retention. The atraumatic lateral wings allow the user to apply low insertion force.

## Features and benefits

- Dilating tip with atraumatic wings provides a low insertion force
- Sharp blade to cut through tissue layers
- Reduced peritoneal tenting during insertion
- Outer plastic sheath protects the blade when not in use
- Locking mechanism provides additional safety
- Available in 3mm, 5mm, 10/11mm, 12mm, and 15mm diameters
- Tyvek packaging reduces space and waste per procedure
- Radiopaque markings ensure the distal tip shows up during X-ray

Bladeless Trocars

Product	Type	Code	Diameter	Cannula	Length	Pack	Box Quantity
Bladeless Trocar	Standard	EC3 SSBT (GT)	3mm	Threaded	60mm	Single	20
Bladeless Trocar	Standard	EC5 SLB	5mm	Ribbed	100mm	Single	5
Bladeless Trocar	Standard	EC5 DLB	5mm	Ribbed	100mm	Double	5
Bladeless Trocar	Standard	EC10 SLB AUTO	10mm	Ribbed	100mm	Single	5
Bladeless Trocar	Standard	EC12 SLB AUTO	12mm	Ribbed	100mm	Single	5
Bladeless Trocar	Standard	EC15 SLB	15mm	Ribbed	100mm	Single	10
