

Cannulas & Trocars

Blunt Trocars

Used principally for the Hasson technique, the blunt trocar is packed with the Hasson fascia adaptor for primary port entry.

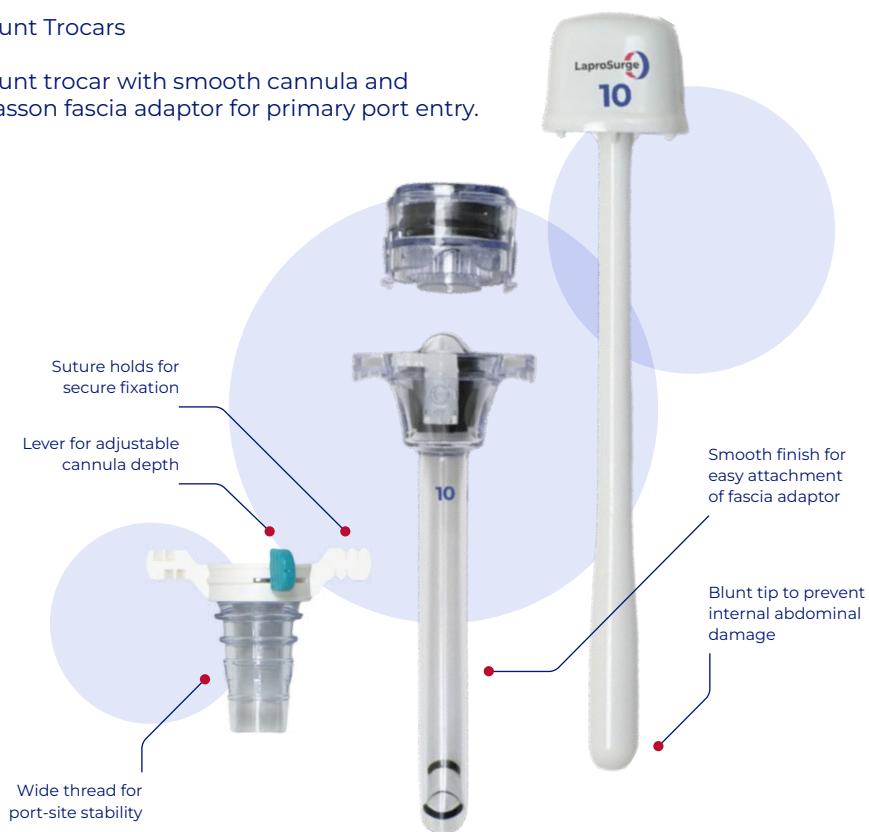

Features and benefits

- Smooth finish for easy attachment of fascia adaptor
- Blunt tip to prevent internal abdominal damage
- Lever for adjustable cannula depth
- Wide thread for port-site stability
- Used in patients with risk of adhesions from previous surgery
- Available in 10mm and 12mm diameters
- Tyvek packaging reduces space and waste per procedure
- Radiopaque markings ensure the distal tip shows up during X-ray

Blunt Trocars

Blunt trocar with smooth cannula and Hasson fascia adaptor for primary port entry.
