

Cannulas & Trocars

# Optical Trocars

The optical trocar provides the user with direct visualisation of the tissue layers during insertion. The optical clarity of the trocar allows the user to visibly detect when the peritoneum is penetrated, reducing the risk to the patient.

## Features and benefits

- Direct visualisation of tissue layers during insertion allows the user to detect when the peritoneum is penetrated
- Bladeless tip design and atraumatic wings reduce insertion force and peritoneal tenting
- Available in 5mm, 10/11mm, and 12mm diameters and as a balloon trocar
- Tyvek packaging reduces space and waste per procedure
- Radiopaque markings ensure the distal tip shows up during X-ray

## Optical Trocars

Product	Type	Code	Diameter	Cannula	Length	Pack	Box Quantity
Optical Trocar	Standard	EC5 SL-O	5mm	Ribbed	100mm	Single	5
Optical Trocar	Standard	EC10 SL-O AUTO	10mm	Ribbed	100mm	Single	5
Optical Trocar	Standard	EC12 SL-O AUTO	12mm	Ribbed	100mm	Single	5
Optical Trocar	Balloon	BC5 SS-O	5mm	Smooth	70mm	Single	5
Optical Trocar	Balloon	BC5 SL-O	5mm	Smooth	100mm	Single	5
Optical Trocar	Balloon	BC12 SL-O AUTO	12mm	Smooth	100mm	Single	5
